

Serial No.: New Appln. (PCT/JP2004/000714)

IN THE SPECIFICATION:

Page 4, line 24, to Page 5, line 2, please amend as follows:

A pair of magnets 21 are disposed in parallel in a manner sandwiching bar-shaped pole—piececenter pole section 23A provided on lower plate 23. Accordingly, center pole section 23A is positioned inside rectangular magnetic gap window 22A of upper plate 22. Two parallel straight sections between pole piece section 23A and upper plate 22 thus form magnetic gap 25. Frame 26 is coupled to magnetic circuit 24, and diaphragm 27 is coupled to the perimeter of frame 26.
